PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in Java, Spring Boot, REST APIs, MySQL, and MongoDB, building secure web applications with JWT authentication and React.js. Skilled in OOPs, JDBC, Hibernate, and Git, with internship and freelance experience delivering multiple production-style projects, including an AI-based client solution.

EDUCATION

B.E in Computer Science Government Engineering College, Karwar	CGPA: 7.8 2025
XII (Karnataka State Board) Kampalaranga PU College, Chitradurga	81.33% 2021
X (Karnataka State Board) Government High School Fort, Chitradurga	82.42% 2019

TECHNICAL SKILLS

Programming Languages: Java, GoLang, SQL, JavaScript
Backend Technologies: Spring Boot, Spring Security, REST APIs, JDBC, Hibernate, Microservices (Basics)
Frontend Technologies: React.js, HTML5, CSS3, JavaScript
Databases: MySQL, MongoDB
Cloud & DevOps: AWS, Docker, Kubernetes, Linux, CI/CD Pipelines, Jenkins, Git, GitHub
AI/ML & Data: Machine Learning, Computer Vision, Power BI
Concepts: OOPs, Data Structures & Algorithms, System Design, JWT Authentication, Agile/Scrum Methodology, Version Control, Unit Testing
Tools & Platforms: Git, GitHub, Postman, Maven, Swagger, VS Code, IntelliJ IDEA

PROJECTS

Bank Management System GitHub	Dec 2025
- Built a secure banking platform using React, Spring Boot, and MySQL, supporting account creation, deposits, withdrawals, and fund transfers for multiple user roles. - Developed 15+ RESTful API endpoints covering account management, transactions, and transaction-history retrieval. - Integrated Spring Security and JWT-based authentication, securing 100% of protected endpoints against unauthorized access. - Designed 6+ normalized MySQL tables and leveraged JPA/Hibernate for reliable data persistence and transaction handling. - Added role-based access control and centralized exception handling, reducing runtime errors and improving system reliability.	
NexCart E-Commerce Application GitHub	Apr 2026
- Delivered a full-stack online shopping platform enabling product browsing, cart management, and order processing for end-to-end purchases. - Engineered 20+ REST API endpoints and validated them using Postman, ensuring reliable frontend-backend communication. - Implemented JWT-based authentication and integrated payment APIs to enable a secure, seamless checkout flow. - Designed a responsive, mobile-friendly UI in React that maintained consistent performance across screen sizes. - Improved frontend load times by adopting efficient state management and lazy loading for key components.	

INTERNSHIP EXPERIENCE

Full Stack Developer KodNest	June 2025 - Apr 2026
- Contributed to 3+ real-time web application projects, working across frontend, backend, and database layers. - Collaborated with a development team on 3+ feature releases, building scalable components and end-to-end application workflows following Agile practices.	
Data Science Intern Compsoft, Bengaluru	Mar 2024 - Jun 2025
Completed hands-on training in Python, SQL, Power BI, and machine learning across 2+ real-time project assignments.	
AI/ML Intern AiRobosoft, Bengaluru	Oct 2023 - Nov 2023
Trained computer vision models on 5,000+ images using Python, improving object detection accuracy by 35%.	

ACHIEVEMENTS

- Working as a Freelance Full Stack Developer, independently delivering 4+ client-based web application projects.
- Completed a freelance client project, "Phishing Email Detection using AI," building a machine-learning-based classifier that achieved 90%+ accuracy in identifying phishing emails.

CERTIFICATIONS

- Full Stack Developer – KodNest, Bengaluru | Jan 2025
- Data Science Intern – Compsoft, Bengaluru | July 2025
- Artificial Intelligence and Machine Learning – AiRobosoft, Bengaluru | Nov 2023
